Quality Research Demands Quality Data!

For decades, **YSI**, **SonTek**, **GWI**, and **AANDERAA** have partnered with scientists across the globe to supply premium water quality, flow, discharge, velocity, and level instrumentation. We recognize the demand for highly accurate, defensible data—and how it fuels critical environmental research on topics such as climate change, harmful algal blooms, and more.

As such, we're proud to offer exclusive incentives to academic institutions to make our industry-leading technology more accessible—and to help you drive positive change in the world.

How Does the Program Work?

To take advantage of the University Incentive Program, simply mention the 10% discount to any Xylem sales representative or manufacturing agent. If you're ready to talk with a sales person, you can [request a quote here](#).
